Welcome!

We are pleased to welcome you to our practice and look forward to meeting you very soon. The Ohio State University Allergy and Immunology Division aims to improve people's lives through innovation in research, education, and patient care.

You and your family are very important to us. We look forward to working together to minimize the symptoms of allergies, asthma and immune system conditions and optimize your health.

Attached you will find a "New Patient Questionnaire" and "Medications to Hold" sheet. The questionnaire should be completed and brought with to your visit. Completing this ahead of time will allow us to focus on answering your questions and concerns during your visit. Please read the "Medications to Hold" sheet carefully and please call us if you have any question or concerns about holding your medications.

The initial appointment typically runs 2-2.5 hours so please plan accordingly. If you arrive 15 or more minutes after your scheduled arrival time, you may be asked to reschedule.

Lastly, our office will collect all co-pays, co-insurance and deductibles at the time of your visit.

Sincerely,

OSU Allergy & Immunology Team
