

THE OHIO STATE UNIVERSITY MEDICAL CENTER  
PULMONARY REHABILITATION SERVICES

Referral for Outpatient Services

DATE: \_\_\_\_\_

The Ohio State University Medical Center offers a state of the art rehabilitation program for patients with chronic lung diseases including emphysema, chronic bronchitis, interstitial lung disease, and cystic fibrosis. The program is also available for patients who are waiting for or recovering from lung transplant, lung volume reduction or other thoracic surgeries. All participants must be referred by a physician. The medical director of the pulmonary rehabilitation service screens all participants for the appropriate exercise program, depending on their medical history, physical exam, and results of pulmonary function tests and exercise test.
