FINANCIAL ASSISTANCE PROGRAMS

Ohio State University Medical Center is committed to serving others by identifying and responding to their needs and recognizing that some people cannot pay for all or part of their healthcare services.

There are three programs to help people with the cost of their medical care within the Medical Center:

- Medicaid
- Hospital Care Assurance Program (HCAP)
- Charity Care Program

To Apply

If you are interested in learning more about these programs, please contact the program coordinator at (614) 293-9898. A financial counselor will begin the application process. First, your application will be sent to the county in which you reside for Medicaid. If you are ineligible for Medicaid, that same application can then be used for HCAP and then Charity Care.

Determining Eligibility

The eligibility requirements vary for each financial program. However, all programs are based on the Federal Poverty Guidelines, require proof of financial situation and are based on family size. You can prove your finances with documentation including:

- Pay stubs
- Payroll information
- Income tax returns
- Letter from your employer
- W-2s
- Letter from an open shelter

Family size is determined as self, a spouse and any children under the age of 18 years old living with you. The hospital's financial counselor can explain this further and answer any additional questions you may have,

Services Not Covered

- Physician fees
- Medically unnecessary services
- Transportation fees
- Prescriptions
- Dental services
- Durable medical equipment

For additional Information, please call (614) 293-9898.
