

PATIENT VISITATION POLICY

Ohio State University Medical Center encourages and facilitates visitation in a manner that promotes healing, balances the needs of all patients and visitors, and creates a safe and secure environment. Thank you for being part of the healthcare team and respecting these guidelines for overnight visitation.

Overnight Visitation Guidelines

- All overnight visitors must wear an identification badge between 10 p.m.–5 a.m.
 - Please wear the badge above your waist throughout your visit.
 - The badge will expire in 24 hours. Please return to the Rhodes Hall Information desk and obtain a new badge for each overnight visit.
- The needs of our patients are the primary factors in deciding whether to allow overnight visitation.
- To provide a healing atmosphere that allows for patients rest, visitation is limited to one visitor per patient from 10 p.m. - 5 a.m.
- There are numerous waiting areas for you to stay during your visit. Please notify the nursing staff where you will be waiting. The staff can call you during the night if the patient's condition changes or if the patient is asking for you.
- Our first priority is to care for our patients. You may be asked to wait in an alternate location based on the needs of both patients in the room.
- To assure the safety of children, please have a non-patient adult supervise children under the age of 12 at all times.
- For the safety of our patients, cell phones and other radio-transmitting devices may not be used in patient care areas. There are clearly Identified, designated areas where cell phones may be used.
- Help prevent the spread of Infection by washing your hands often and covering your mouth when coughing or sneezing.

Ohio State University Medical Center is committed to improving people's lives through personalized health care.
